Professional Experience

Full-stack Developer

September 2025 - Present

Nexrox Digital - Dhaka, Bangladesh

- Architected StallForest multi-tenant SaaS platform (NestJS, GraphQL, PostgreSQL) and POS-Inventory system (React, Node.js, MongoDB) handling complex e-commerce workflows and real-time inventory tracking.
- Developed Java Spring Boot backends for service platforms with secure APIs, database optimization, and automated notifications (JPA/Hibernate, Spring Security, JWT).

Skills

- **Frontend:** JavaScript, TypeScript, React.js, Next.js, TanStack Query, React Hook Form, MUI
- **Backend:** Node.js, Express.js, NestJS, Java Spring Boot, GraphQL
- **Database and ORM:** MongoDB, PostgreSQL, Prisma ORM, JPA/Hibernate, Git, Firebase, Vercel, Render
- **Tools:** Git, Socket.io, Firebase, Vercel, Render

Projects

Ultimates Roofing Service

[Live Preview](#)

A backend service booking system with customer management, bookings, and admin analytics dashboard.

- Booking System: Customer registration, service booking with status tracking.
- Admin Analytics: Revenue reports, customer analytics, service breakdown, booking statistics.
- Automated Email Notifications: JavaMailSender integration for transitional emails.

Tech Stack: Java Spring Boot, PostgreSQL, JPA/Hibernate, Spring Security, JWT

StallForest

[Live Preview](#)

A multi-tenant SaaS platform where merchants can launch fully branded online stores under custom subdomains with an isolated database, custom themes, and complete commerce tools.

- Multi-Tenancy: Auto-provisions isolated PostgreSQL schemas per tenant with Prisma Migrate.
- Full Commerce Suite: Products, orders, coupons, flash sales, pre-orders, and addon system.
- Real-Time Inventory: Redis caching for fast product lookups, real-time stock updates.

Tech Stack: Next.js, NestJS, GraphQL, PostgreSQL, Prisma ORM, Redis

Language

- Bengali: Native
- English: Comfortable
